PROFILE

Senior Full-Stack Web Developer with 10+ years of experience building high-performance, secure and scalable web applications. Expert in custom WordPress theme & plugin development, PHP, Laravel, MySQL and modern JavaScript (React, Next.js, Node.js). Recently specialised in AI-powered solutions: chatbots, ChatGPT & Claude API integrations, agentic RAG systems and n8n booking automation. Proven record of 50+ delivered projects across e-commerce, real estate, education, food and service businesses, with strong team leadership and mentoring experience.

EXPERIENCE

Senior Web Developer

Jan 2022 – Present

Vaival Tech — Lahore

- Lead developer on client builds: custom WordPress/WooCommerce platforms, Laravel systems and React/Next.js applications deployed on Cloudflare Workers & Pages.
- Delivered AI-powered features: customer-facing chatbots, ChatGPT & Claude API integrations, and end-to-end n8n booking automation synced with Google Calendar and Sheets.
- Mentor junior developers, run code reviews and own delivery from estimate to deployment.

Senior WordPress Developer

Jan 2018 – Jan 2021

Vogue Vesture — Lahore

- Built custom themes, plugins and WooCommerce stores; owned performance optimisation (caching, CDN, Core Web Vitals) and on-page SEO.
- Shipped corporate and e-commerce sites end to end with designers and QA.

Junior Web Developer

Jan 2017 – Dec 2017

Claws Custom Boxes — Lahore

- Developed and maintained packaging-industry websites in PHP and WordPress.

Web Developer (Internship)

Sep 2015 – Dec 2016

4Dee Technologies — Lahore

- Started professional career: HTML5, CSS3, JavaScript, jQuery and PHP fundamentals.

EDUCATION

BIST — Punjab University, Lahore

2015 – 2019

I.C.S — Govt. Islamia College Civil Lines, Lahore

2013 – 2015

FEATURED PROJECTS

Bookora — Service Marketplace

[Next.js](#) · [React](#) · [Stripe Connect](#)

Two-sided marketplace where customers book vetted local professionals in minutes: live time slots from each provider's calendar, Stripe payments held until the job is done, reviews only after completed bookings, and provider storefronts with revenue analytics.

bookora.vvtechsol1.workers.dev

Auralis — AI-Automated Home Cleaning

[WordPress](#) · [OpenAI](#) · [n8n](#)

Booking runs on automation instead of a contact form: an AI assistant answers from the business's own knowledge base, prices the clean, reads real calendar slots and confirms the visit - relayed to n8n, synced to Google Calendar and confirmed by email.

auralis.vvtechsol1.workers.dev

ReasonTrace — Agentic RAG System

[Python](#) · [LangGraph](#) · [FastAPI](#)

An agentic retrieval system that decides when to retrieve, call tools, verify or refuse: nine LangGraph nodes, hybrid retrieval with reranking, verified citations, 100% route accuracy and 229 tests.

vvtechsol1.github.io/reasontrace

Vizora — Eyewear & Beauty Store

[WordPress](#) · [WooCommerce](#) · [Elementor](#)

Full WooCommerce storefront for glasses, contact lenses and makeup: mega menu from the category tree, shareable no-JS filters, prescription-aware lens ordering and 72 automated checks, including a real order.

vizora.vvtechsol1.workers.dev

CrewMatrix — Construction Bidding Marketplace

[Next.js](#) · [TypeScript](#) · [Stripe](#)

Connects general contractors with licensed subcontractors across 12 trades: licence and insurance compliance checks, side-by-side bid comparison, project-linked messaging and escrow-backed milestone payouts.

crewmatrix.vvtechsol1.workers.dev

LibraryOS — Library Management System

[Laravel](#) · [PHP](#) · [MySQL](#)

Full library platform with public catalogue: real-time shelf availability, holds with automatic queues and notifications, loan periods, late fees and staff circulation management, in a clean responsive UI.

libraryosstudio.kesug.com

SEO AI (SeofinityAI) — AI SEO Platform

[TypeScript](#) · [Cloudflare Workers](#)

AI-powered SEO automation that connects to existing sites without DNS changes: site audits and health scores, bulk SEO-optimised articles published to the user's own domain, and Google Search Console rank tracking.
